Model C713 - Gravity

| | | | |
|---------------------------------------|---------------------------------|---------------------------------|---------------------------------|
| <i>Pump System</i> | C712 each side | 8756 each side | 8754 each side |
| <i>impact serving 3.5 oz cups</i> | 40 servings each side | 27 servings each side | 23 servings each side |

- Twin twist** - offers flavor choices
- High capacity** - meets the needs of large volume applications
- Narrow footprint** - fits tight space requirements
- Hidden Draw Rate Adjustment** - Reduces risk of employee or customer tampering, which could affect capacity
- Self Closing Draw Handle** - Aids in busy or self- service applications
- International Symbol Icons** - Keeps operation free from language barriers
- Programmable auto mode start time** - Product is ready to serve when store opens
- Draw Counter in control** - Number of servings can be monitored by day, week, or month

Serving South Florida and the Caribbean Since 1960.

FlavorBurst, a unique auto-flavoring system for soft-serve, shakes, and slush. By expanding your selection of up to **39 different flavors** you will enhance your business and your profits. The FlavorBurst system offers *minimal space and maintenance requirements* and comes with a comprehensive warranty and promotional P.O.S. kit.

Come and taste for yourself !

The Flavor Burst system is easy to use. It can be added to your existing Taylor, as a narrow stand alone piece with the dispenser added to your drawer.

Taylor now offers flavorburst equipment already within your new Taylor machine! No extra space needed. Same Flavor Burst advantage, but with less the space.

Take advantage of the new taylor **C712**, a high capacity, twin twist pump, soft serve freezer with two, 20-quart (18.3 liter) mix storage hopper. Simplified air/mix pumps deliver the precise amount of air and mix to the freezing cylinders, and reduce operator parts. Its rounded styling makes it easier for cleaning and the narrow footprint is a perfect fit for tight space requirements.

Tip Of The Month

Flavorburst pumps should be flushed when a bag runs empty or at least once a month to keep pumps running efficiently and to avoid unnecessary pump failures.
