

Flavor Burst™ Soft-Serve System

The Flavor Burst™ system is a revolutionary add-on that allows you to add 4, 8, or 16 different flavors to your soft-serve or yogurt freezer by injecting concentrated flavorings throughout your finished product. The result is a fun, colorful product filled with great-tasting premium flavor!

Attract kids and adults alike with a variety of delicious tastes -- Chocolate, Strawberry, Butter Pecan, Bubble Gum, Blue Goo™ -- more than 30 flavors in all!

Instead of adding eight freezers to your floor space, consider the addition of a Flavor Burst™ that requires only 10" next to your existing freezer at a fraction of the cost. Existing installations that added Flavor Burst™ have reported sales increases of 300% and higher.

**Small System.
Big Profits!**

Flavor Burst™ Soft-Serve System

Expand these
Taylor® models...

Flavor Burst™ is a proven sales builder. Kids love the bright ribbons of color it adds to soft-serve or frozen yogurt. Adults love the variety of flavors with sophisticated tastes.

The system is easy to install and operate. The operator first selects the flavor choice on the electronic key pad. As the finished product is drawn, concentrated flavorings are injected throughout. The flavor output is adjustable for both flow and taste. Four or eight different flavors can be added to a single head freezer -- sixteen flavors to a dual-head unit.

Flavor Burst™ flavorings are packaged in triple-layer containers for long, stable shelf life that requires no refrigeration. Most operators have found that one gallon of flavoring will yield up to 900 servings! New flavors are simple to insert and lock into place. Choose from a complete variety of flavors available that will attract both adults and kids alike.

The Flavor Burst™ system is easy to maintain. With clean and sanitize-in-place functions cleaning requires only a few minutes a day... and with easy-to-wipe-clean all stainless steel cabinetry.

Expand any menu with colorful selections of cones, cups, shakes, novelties, pints and quarts in the very smallest space possible - only 10" next to your soft-serve freezer!
